

## **Bates Elementary – Cardozo Middle School Design and Construction**

SOL provided design engineering, environmental engineering, USACE permitting service and construction support for the 138 plus acre site. It contains 21 classrooms, an art room, music room and computer room. It also includes a health center, literacy room, tutorial room, and a separate dining room. The contract for building the two schools in late January 2009 totaled \$27,925,000.
